

PVP Watch Newsletter #7-Future Articles-10/04

We now have over a thousand people on our mailing list while less than 10 have asked to be removed from the list. Occasionally we receive feedback, including agreement and disagreement, on various subjects. We not only appreciate comments we solicit your views. If you have a different viewpoint we would share your written input with our readers with your permission.

Future topics will include Traffic/Measure A, Infrastructure (Storm Drains & Sewers) and the proposed revisions to the General Plan. Let us know what other subjects you would like addressed.
